

## Autodeskin asennusmedioiden lataaminen

1. Siirry sivustolle [https://ava.autodesk.com/?input=Account\\_Software\\_Download\\_Redirect](https://ava.autodesk.com/?input=Account_Software_Download_Redirect).
2. Määritä ensin ohjelmisto/versio ja paina Next -näppäintä.

The screenshot shows a web form titled "Download A Product". It includes a note "( \* required field )". The first question is "What product would you like to download?\*", with a dropdown menu showing "AutoCAD LT". The second question is "2018", also with a dropdown menu. A blue "NEXT" button is positioned below the second dropdown, with a mouse cursor hovering over it. At the bottom, a progress indicator shows "2 Select language and operating system\*" as the next step.

3. Valitse tämän jälkeen vielä käyttöjärjestelmä, kieliversio ja asennusmenetelmä.
